ACADEMIC PROJECTS:

Project Name: Cadis – Odontech (Academic Project)		MS-Major Project
Project Description	The prime task of "Computer Assisted Dental Identification system" is to maintain a large set of information about dental records and to build a system which predicts the possible and probable identification of individuals based on ante mortem and post mortem historic, current dental records. Forensic dentists are able to look into dental records and figure out important information such as conformation of identity, age estimation, to solve crime cases, etc. The bottom line of this project was to develop and deploy application which serves as an aid to Forensic Dentistry.	
Project Duration: 6 Months		

Project Name: Expedition Explorer (Academic Project)		BCA-Major Project
Project Description	The main purpose behind this project was to develop a website. The website "Expedition Explorer" is an ultimate pit stop for travelers. This website basically includes <ul style="list-style-type: none">✓ Login session, Managing tours& Administration✓ Flight booking, Local transportation booking✓ Booking of accommodation in hotels & Capturing feedback The users can visit this site to obtain, explore the latest news and updates as simple as a click of a button at any place in any point of time as they are traveling out of home.	
Project Duration: 6 Months		

Project Name: Visa Processing System (Academic Project)		BCA-Minor Project
Project Description	The intent of this project was to develop a potential VB application which had capabilities of providing all the necessary required information about visa, their categories, easy approval, renewal of visa and fee payments. So once we got the details from client's the visa we verify it from anyplace and send the remainder through e-mail to renewal of visa. Finally it produces printouts to payment of customers.	
Project Duration: 3 Months		

Project Name: Snake Guide		Real Time Project
Project Description	The aim of this project was to develop a user-friendly GUI design to educate, provide guidelines, preventive measures for snake bite in and around Bangalore. Developed and implemented a stand-alone Microsoft windows application program named 'Snake Guide' for "Just Adventures" Bangalore. This application basically consists of various sections such as: Snakes Statistics, Details on Individual Snakes, Image Gallery, Wild-Life Acts, prevention and first-aid for snake bite etc.	
Project Duration: 3 Months
